

# USACE Flood Risk Management & Silver Jackets 2011 Workshop

*“Sharing Experience in Driving Down Flood Risk”*

Welcome To Nashville

US Army Corps of Engineers  
**BUILDING STRONG**®

# USACE Flood Risk Management & Silver Jackets 2011 Workshop

## Purpose

Bring together representatives from all levels of government (Federal, State, and local) who have responsibilities in managing flood risks to share information, experiences, and best practices and:

- Assess progress in the USACE Flood Risk Management and Silver Jackets programs
- Review and discuss key program policies / guidance and strategies with non-Federal partners and stakeholders
- Share successes and challenges
- Participate in problem-solving activities
- Develop knowledge / skills to better manage flood risks together
- Envision the next chapter in Flood Risk Management

# USACE Flood Risk Management & Silver Jackets 2011 Workshop

## Objectives

- Facilitate networking and provide a forum for USACE and key Federal and State flood mitigation and flood risk managers to enhance collaborative problem-solving;
- Enhance interactions among USACE flood risk managers for more effective implementation of our FRM and Silver Jackets programs in collaboration with FEMA and State mitigation programs
- Review and discuss program policy, implementation guidance, and strategies, successes, and challenges
- Facilitate information sharing between Federal, State, and local partners and stakeholders
- Further develop and share best flood risk management knowledge / skills
