

2014 Interagency FRM Project Workshop

Maximizing Our Collective Impact on Flood Risk
Thursday August 21

US Army Corps of Engineers
BUILDING STRONG

Part 1: Strengthening Complementary Partnerships and Projects

- How can we increase our impact on flood risk?
- How can we move projects beyond assessment and information sharing to prompting actions that reduce flood risk?
- How can we build on each other's programs and take coordinated action to achieve more effective and efficient flood risk management outcomes?

Part 2: Spreading the Word

- What are a few of the key points you learned during the meeting?
- Who would you like to share these lessons with?
- How do you plan to share this information/lessons learned?
